

Wills Point Texas
Feb 26th 1889.

To The Director of the mint,
Philadelphia Pa.

Dear Sir:

Will you be so kind as to inform me if the Government has ever coined a nickel having both sides alike and with no date stamped upon it? I have in my possession a nickel having every appearance of being genuine and so pronounced by experts, that has the words "United States of America" and the word "Cents," with the thirteen stars surrounding the figure "5," stamped upon both sides. And no date of course upon it. This being upon the "shield" side of the ordinary nickel.

Your reply will oblige
Very respectfully Yours,
Wm. P. Gibson

Wm. W. Gibson

Asks if Govt ever coined
a nickel having ^{both} sides
alike & without date.

[Abstract:] Asks if Gov't ever coined a nickel having both sides alike & without date.

Wills Point Texas
February 26, 1889

To the Director of the Mint
Philadelphia, Pa.

Dear Sir:

Will you be so kind as to inform me if the government has ever coined a nickel having both sides alike and with no date stamped upon it? I have in my possession a nickel having every appearance of being genuine and so pronounced by experts that has the words "United States of America" and the word "Cents", with the thirteen stars surrounding the figure "5", stamped upon both sides. And no date of course upon it. This being upon the "shield" side of the ordinary nickel.

Your reply will oblige,
Very respectfully yours,
Wm. N. Gibson
